ELIAS ALSTÉUS

M.Sc. Mechanical Engineering Student
elias.alsteus@gmail.com | +46 76 321 78 30 | LinkedIn

Profile

Mechanical Engineering student at Linköping University, specializing in Production Engineering. Hands-on experience with CAD (Solidworks, Creo) and FEM (Ansys), and currently leading control-system development on an autonomous firefighting robot in a cross-functional 18-person engineering project. Four years of customer-facing technical sales and installation work alongside studies. Looking for a summer internship in product development, sourcing, logistics or consulting

Education

Linköping University — **Linköping, Sweden**
M.Sc. Mechanical Engineering (*Ongoing*) — Aug. 2023– Jun. 2028

- **Bachelor's thesis**: Fire Robot Helios 3.0 – System Validation, Testing and Iterative Development *(*Expected Jun *2026)*
- **Exchange Semester** – National Yang Ming Chiao Tung University (Fall 2026)
  - International studies with focus on mechanical engineering and industrial management
- **Master:** Logistics & Supply Chain Management *(*Expected Jun *2028)*

Tranemo Gymnasieskola — **Tranemo, Sweden**
Technology Program – Design and Product Development — Aug. 2018– Jun. 2021

Experience

Engineering Project: Fire Robot Helios 3.0 (Bachleor Thesis) — **Linköping, Sweden**
Technical Installer and Sales *(Part Time & Full time)* — Jan. 2026 – Jun. 2026

- Helios is an autonomous firefighting robot built to enter burning buildings unsafe for firefighters – enabling active intervention where today a 300 m evacuation radius forces a passive response.
- Developing the remote control system (Arduino, C++, motor drivers, DC motors) for reliable operation at 300+ m, with an integrated live camera feed to a custom handheld control unit.
- Responsible for test, validation and iterative redesign of the control system across the 6-group, 18-person project team.

Borås Markis Service AB — **Borås, Sweden**
Technical Installer and Sales *(Part Time & Full time)* — Jun. 2021 – Aug. 2025

- I was responsible for selling and installing custom awning, sun-shading and outdoor screen systems for residential and commercial customers, working independently on-site from measurement and quoting through to final installation and handover
- Acted as the customer's single point of contact through the full project cycle, translating technical specifications into clear advice and adapting solutions to site-specific constraints

Ung Företagsamhet, Co-Founder — Aug. 2020 – Jun 2021

- Ung Företagsamhet is an organization that lets high school students start, run, and close a company within one year.
- Co-founded and ran a student company designing and selling custom socks; Owned product design and branding; shared sales, supplier contact and finances through to formal close-out.

Larssons Trä AB — **Tranemo, Sweden**
Warehouse Worker — Summers 2017 – 2021

- Worked in both warehouse and production environments. Primary responsibilities included assembly line product assembly and packing of finished goods.

Isaberg Mountain Resort — **Hestra, Sweden**
Ski Lift Operator — Winter 2021

- Ensured safe operation of ski lifts and assisted guests with embarkation and disembarkation.

Other

Team Captain at Tranemo IF: Played football with Tranemo IF from youth to senior level, developing teamwork, discipline, and leadership as team captain in selected matches

Languages: Swedish (native), English (fluent), German (basic)

IT: Advanced: Excel, CAD (Solidworks, Creo, Ansys Workbench); Foundational: MATLAB, Powerpoint, Python, ADA, Ansys Discovery

Interests: Endurance sports, strength training, football, hiking
